TECH STACK

FRONTEND

React.js · JavaScript ES6+ · HTML5 · CSS3 · Tailwind CSS · Bootstrap · Redux

BACKEND

Node.js · Express.js · REST API · JWT Auth

DATABASE

MongoDB · MySQL · Mongoose

TOOLS

Git & GitHub · VS Code · Postman · Figma · Vercel · Firebase

BEST PRACTICES

- Performance Optimization
- Component Architecture
- Responsive Design
- SEO Best Practices
- Cross-Browser Compat.
- Clean Code Principles
- Agile / Scrum Workflow

EDUCATION

B.Sc. Information Eng. Tech.
University of Technology
Nowshera, KPK, Pakistan
Aug 2022 – 2026

MUHAMMAD HAMZA

MERN Stack Developer · React.js Expert · Frontend Engineer

Results-driven MERN Stack Developer with 2+ years of experience crafting high-performance, scalable web applications. Expert in React.js, Node.js architecture, and seamless API integration. Passionate about clean code, exceptional UX, and delivering pixel-perfect solutions on time.

WORK EXPERIENCE

Frontend Web Developer
Feb 2026 – Present

CodeChine — Onsite · Nowshera, KP

- Developing modern, responsive web interfaces using React.js and JavaScript for diverse client projects.
- Translating Figma and design mockups into pixel-perfect, accessible React components with WCAG compliance.
- Collaborating with backend teams to integrate REST APIs and ensure seamless data flow.
- Implementing performance optimization via code splitting, lazy loading, and memoization.

Frontend Web Developer
Oct 2023 – Feb 2026

JMM Technologies — Onsite · Nowshera, KP

- Built and maintained 10+ business websites and landing pages using React.js, HTML5, CSS3.
- Developed reusable UI component library, reducing development time by **30%+** across projects.
- Integrated third-party APIs including payment gateways and real-time data services.
- Collaborated directly with clients to gather requirements and deliver projects on deadline.
- Ensured cross-browser compatibility and full mobile responsiveness for all deliverables.

KEY PROJECTS

Smart Pizza & Cafe Website

React.js · JavaScript · CSS3 · REST API

- Full-featured restaurant site with menu, cart & order management.
- Smooth animations with optimized load performance.
- Real-time order status tracking via backend API.

E-Commerce Store (Full-Stack)

MERN Stack · Redux · Stripe · MongoDB

- End-to-end platform with cart, wishlist & Stripe payments.
- JWT auth with admin dashboard for order management.
- Deployed on Vercel + Render with CI/CD pipeline.

Real-Time Chat Application

React.js · Node.js · Socket.io · MongoDB

- Real-time messaging with private rooms & typing indicators.
- Socket.io for sub-100ms message delivery.
- Message history with MongoDB persistence.

Admin Dashboard & Analytics

React.js · Recharts · Tailwind · REST API

- Dynamic charts, KPI widgets & data tables.
- Role-based access control (RBAC) with protected routes.
- Dark/light theme toggle, fully responsive.

Kanban Task Manager

React.js · DnD Kit · Firebase · Tailwind

- Drag-and-drop Kanban with real-time Firebase sync.
- Task priorities, labels, due dates & team assignment.
- Offline-first with local state sync on reconnect.

Modular UI Component Library

React.js · Tailwind CSS · Storybook

- Reusable system adopted across all JMM projects.
- Documented with Storybook for fast team onboarding.
- Reduced UI bug reports by 40% through component isolation.
